

Remind.com

Remind.com is a text/email system that allows for parents to register for the school bus that their child rides. Once you are signed up for the notices you will receive notification through this system for issues that relate to that bus only. This prevents parents from receiving notifications that do not belong to their bus. Any notices that pertain to all buses will still be sent out through our school call out system. Please note, if you are not signed up for these bus reminders you will not know about issues such as late buses, discipline issues, etc.

To receive messages by text please send a text to **81010**

You will need to enter in the text box the corresponding information per the bus you would like to register for. If you would like to receive notices for more than one bus you will need to complete the process for each bus.
